EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Ronald Davidge on July 28, 2005.

The application has been amended as follows:

In claim 1 line 12, the word "forming" was deleted and replaced with the language, -- the second document path being --.

In claim 1 line 12, between the words "a" and "loop", the word -- complete -- was inserted.

Reasons for Allowance

2. The following is an examiner's statement of reasons for allowance:

Claim 1 was allowed because the prior art of record does not teach or render obvious the total combination claimed, including a first motor, a second document path, extending from the internal end of the first document path, the second path being a complete loop to invert a check driven around the second document path in a preferred direction, and a second motor driving the at least one second document driving member to move the check around the loop in the second document path in the preferred direction, wherein the first motor and the second motor are separately controlled.
